## **Tic Plas**

Tania Zolty

See them drifting up down lightly towards the trees dancing in the leaves caught in branches everywhere plastic garland

Mother nature is crying out to mankind

plastic: waste: poison

Mother Earth is crying

all over

Mother nature cries showing us the signs We have all gone blind

Mother Earth is crying

See them swirling in the current, simply, resting on the shores, building plastic patches garbage floating trash *Tic plas tic Tic plas* 

Mother nature is crying out to mankind

plastic: waste: poison

Mother Earth is crying

Growing fast all over all over

Mother nature cries giving us the sign It is time to draw the line

Mother Earth is crying

Tic plas tic Tic plas (choeur)

See them spread out in the fields quiet Lives searching for food, killed with toxic indigestion Plastic poison Tic plas tic Tic plas

Mother nature is crying out to us plastic: waste: poison

Mother Earth is crying

all over all over

Tic plas tic Tic plas

Mother nature cries showing us the signs Mankind has to got find...the solution

Mother Earth is crying

Tic plas tic Tic plas...
